Except to the extent exempted/waived, this authority is subject to the terms, conditions, and limitations indicated:

X Ansett's authority is subject to standard exemption conditions (attached); X Northwest's authority is subject to its certificate of public convenience and necessity; and X Statement of Authorization for Ansett and Northwest code-share operations dated December 11, 1998, and conditions therein.

**Action taken by: Paul L. Gretch, Director
Office of International Aviation**

We found that the applicants were qualified to perform their proposed operations.

Under authority assigned by the Department in its regulations, 14 CFR Part 385, we found that (1) immediate action was required and was consistent with Department policy; (2) grant of the authority was consistent with the public interest; and (3) grant of the authority would not constitute a major regulatory action under the Energy Policy and Conservation Act of 1975. To the extent not granted/deferred/dismissed, we denied all requests in the referenced Docket. We may amend, modify, or revoke the authority granted in this Notice at any time without hearing at our discretion.

Persons entitled to petition the Department for review of the action set forth in this Notice under the Department's regulations, 14 CFR §385.30, may file their petitions within ten (10) days after the date of issuance of this Notice. This action was effective when taken, and the filing of a petition for review will not alter such effectiveness.

An electronic version of this document is available on the World Wide Web at: http://dms.dot.gov/reports/reports_aviation.asp

¹ Northwest also requested waiver from the 60-day advance filing requirement of 14 CFR 377 to ensure that its authority remain in effect beyond the December 11, 1999, expiration date, pending action on its renewal application. On December 12, 1999, we orally granted the request. We confirm that action here.

² The applicants requested that the authority be effective for a period of two years. We dismissed that portion of the application requesting renewal of Ansett's authority beyond September 11, 2001, without prejudice to refile at a later date. The duration of the authority we are granting Ansett is consistent with our usual policy of granting foreign air carriers interim authority in cases such as that presented here.
