DISPOSITION

XX Granted (subject to conditions, see below)

The above action was effective when taken: January 19, 2001, through January 19, 2002 or until United Parcel Service obtains the requisite foreign government authority to operate services in its own name, whichever occurs earlier.<sup>1</sup>

Action taken by: Paul L. Gretch, Director  
Office of International Aviation

XX The authority granted is consistent with the aviation agreements between the United States and Argentina and between the United States and Brazil.

Except to the extent exempted or waived, this authority is subject to the terms, conditions, and limitations indicated: XX Holder's certificate of public convenience and necessity

XX Standard exemption conditions (attached)

**Conditions:** The authority granted to serve intermediate and beyond points in conjunction with Argentina service is limited to countries with which the United States has signed open-skies agreements and/or countries for which the carrier holds authority to serve under certificates or exemptions issued by the

<sup>1</sup> By Order 2000-6-7 we approved the transfer to UPS of Challenge's certificate and exemption authorities to provide scheduled all-cargo service between the United States and various countries in Latin America.

Department, and for which it holds route integration authority, by virtue of either the present action or other action of the Department, and is subject to all conditions attached to that authority.

The route integration authority granted Challenge is subject to the condition that any service provided under this exemption shall be consistent with all applicable agreements between the United States and the foreign countries involved. Furthermore, (a) nothing in the award of the route integration authority requested should be construed as conferring upon Challenge rights (including fifth-freedom intermediate and/or beyond rights) to serve markets where U.S. carrier entry is limited unless Challenge notifies the Department of its intent to serve such a market and unless and until the Department has completed any necessary carrier selection procedures to determine which carrier(s) should be authorized to exercise such rights; and (b) should there be a request by any carrier to use the limited-entry route rights that are included in Challenge's authority by virtue of the route integration exemption granted here, but that are not then being used by Challenge, the holding of such authority by route integration will not be considered as providing any preference for Challenge in a competitive carrier selection proceeding to determine which carrier(s) should be entitled to use the authority at issue.

**Remarks:** Challenge requested a waiver from the 60-day advance filing requirements of 14 CFR 377 to ensure that its authority would continue in effect beyond the expiration date (January 13, 2001), pending Department action on its renewal application. On December 21, 2000, we orally granted the request. We confirm that action here.

---

On the basis of data officially noticeable under Rule 24(g) of the Department's regulations, we found the applicant qualified to provide the services authorized.

Under authority assigned by the Department in its regulations, 14 CFR Part 385, we found that (1) our action was consistent with Department policy; (2) grant of the exemption authority was consistent with the public interest; and (3) grant of the authority would not constitute a "major regulatory action" under the Energy, Policy and Conservation Act of 1975. To the extent not granted, we denied all requests in the referenced Docket. We may amend, modify, or revoke the authority granted in this Notice at any time without hearing at our discretion.

Persons entitled to petition the Department for review of the action set forth in this Notice under the Department's regulations, 14 CFR §385.30, may file their petitions within ten (10) days after the date of issuance of this Notice. This action was effective when taken, and the filing of a petition for review will not alter such effectiveness.
